

DEEPHOW | QUICK START GUIDE

FIRST TIME LOGIN

- Open web browser (Chrome is preferred)
- Navigate to <https://deephow.ai>
- Select Log-in with your company email and activated password OR SSO if set up by your Org Admin

The screenshot shows a login form with the following elements:

- Header: "Log in"
- Text: "Please insert your details to log in."
- Input field: "Email or Employee ID"
- Input field: "Password" with a "Forgot password?" link to its right.
- Buttons: "Log in" and "Log in with SSO".

REQUESTING PUBLISHER ACCESS

- Validate that you have logged in to DeepHow the first time
- Identify an existing workspace or if you need a new workspace created
 - You may need a new workspace if an existing one does not fit your topic
- If you need a new workspace, contact your DeepHow Workspace Admin, or Customer Success Manager, or support@deephow.com

EQUIPMENT RECOMMENDATIONS FOR PUBLISHERS

- The following equipment will enhance the video capture and can be purchased from Amazon.
- Noise canceling headset such as the [Blue Parrot B450-XT or C400-XT](#)
- Stabilizing gimbal such as the DJI OSMO Mobile 6

DEEPHOW APPS FOR MOBILE DEVICES

- Mobile apps are recommended for **publishers** (DeepHow Capture) and those who only want to **view** (DeepHow Navigator) on a mobile device
- Check with your company IT/Security team to verify if your device needs to be registered
- DeepHow has a **Capture** and **Navigator** App for iOS and Android downloaded from the appropriate App Store.
- Open the DeepHow **Capture** or **Navigator** App
 - Enter your email address to log in, select Log-in, then select Log-in with your password or with SSO if applicable
 - If your company requires 2-factor auth screen. Select send code to get the code and select verify. You will be taken to the app home screen.

DEEPHOW HELP AND TRAINING

- [Find training and how-to videos from DeepHow here.](#)
